

<@phrik> Welcome to #archlinux, tell us how you fucked up.

IRC nickname: Date and time of fuck-up:

What emotions were going through your head upon fucking up? (check all that apply)			
<input type="checkbox"/> Panic	<input type="checkbox"/> Remorse	<input type="checkbox"/> Amplified IRC elitism	<input type="checkbox"/> Fear, uncertainty and doubt
<input type="checkbox"/> Nerdrage	<input type="checkbox"/> Wah wah wah	<input type="checkbox"/> Desire to install Ubuntu	<input type="checkbox"/> Other (please specify):

What initially caused your fuck-up to occur? (check all that apply)	
<input type="checkbox"/> systemd	
<input type="checkbox"/> pacman -Sy <package>	
<input type="checkbox"/> pacman -S --force <package>	
<input type="checkbox"/> The AUR	
<input type="checkbox"/> I used yaourt	
<input type="checkbox"/> I installed	(packages)
<input type="checkbox"/> I ran dd and now my computer won't boot	
<input type="checkbox"/> I didn't look it up on the Arch Wiki	
<input type="checkbox"/> I looked it up on the Debian Wiki	
<input type="checkbox"/> Allan broke it	
<input type="checkbox"/> I tried deleting a file named ~	
<input type="checkbox"/> My root partition is btrfs	
<input type="checkbox"/> I used an installation script	
<input type="checkbox"/> I forgot the root password	
<input type="checkbox"/> I saved the root password in a text file only readable by root	
<input type="checkbox"/> I copy-pasted commands from an abandoned online discussion forum	
<input type="checkbox"/> I tried setting up a printer and now lp0 is on fire	
<input type="checkbox"/> I couldn't find #archlinux	
<input type="checkbox"/> I took #archlinux-offtopic seriously	
<input type="checkbox"/> I listened to	(IRC nick)
<input type="checkbox"/> I didn't listen to	(IRC nick)
<input type="checkbox"/> I tried to be funny in IRC and got banned	
<input type="checkbox"/> I put my swap file in /tmp	
<input type="checkbox"/> I installed LUKS with a detached header and my mom washed the pants with the USB stick in them	
<input type="checkbox"/> I don't know, but it wasn't my fault	
<input type="checkbox"/> Other (please specify):	

What have you tried so far to remedy your fuck-up? (check all that apply)			
<input type="checkbox"/> pacman -Syu	<input type="checkbox"/> Rebooting	<input type="checkbox"/> Reinstalling Arch Linux	<input type="checkbox"/> Installing Gentoo
<input type="checkbox"/> Crying	<input type="checkbox"/> Crying in IRC	<input type="checkbox"/> Other (please specify):	

Please return completed form to /dev/null in order for your fuck-up to be assessed by a professional.
